

Manitoba Environmental Industries Association has a **Student Chapter** that provides an opportunity for students of university and college to enhance their knowledge of the environment industry and to network with potential employers.

Benefits to becoming a member include:

- monthly bulletin on current environmental issues, conferences and job opportunities
- annual speed mentoring event with representatives of various environmental industries
- annual pizza night
- corroboration of ideas, projects and opportunities
- participate on a committee
- volunteer at a learning event, workshop or conference
