### Course Description for the Trade:

Landscape Horticulturists design, construct, install and maintain landscaping. Projects include walkways, fences, decks, outbuildings, and irrigation systems. Responsibilities include maintaining inventory and facilities in greenhouses and garden retail centers and advising customers and clients on plants, plant materials, pesticides, fertilizers and other landscaping products.

### Who should attend?

This comprehensive 1 week review session is intended to prepare candidates wanting to receive The Landscape Horticulturist Red Seal Endorsed credential.

Interested candidates include Greenspace Horticulture Graduates, Provincial Landscape Technician Journeypersons; and employers or managers requiring the Trade Qualification in order to register employees in the Landscape Horticulturist Apprenticeship program.

### Pre-requisite:

Must meet the profession requirements to challenge the Red Seal exam including having a minimum 4.5 years' experience and at least 7650 hours in the trade and that have registered or are in the process of registering to challenge the exam.

### Course Dates and Costs:
