

Network Analyst Information Technology Solutions

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email.

Red River College is a leader in applied learning and innovation. Our talented team of employees is passionate about education, innovation and student success. We offer competitive salaries, extensive benefits, and the opportunity for personal and professional growth in a rewarding career.

Duties: Red River College requires an experienced self-motivated individual to support our enterprise network. Key expectations will include: Assisting with the configuration, installation and maintenance of complex network hardware and software including, switches, wireless networking devices, and routers at all locations where the College provides network services; acting as the first point of contact for trouble calls on network related issues; assisting with the planning, documentation, implementation, and testing of regular network hardware and software upgrade projects; monitoring and analyzing network logs and troubleshooting connectivity problems using a combination of hardware and software tools; creating and maintaining network documentation, including address tracking and topology maps; coordinating requests for, and installation of, new network connections, and, providing account maintenance for various network services.

Qualifications:

Required:

- Post-secondary degree or diploma in information technology; other combinations of education and experience may be considered
- Strong organizational, analytical and research skills, with attention to detail
- Adaptability to work in a constantly evolving network environment
- Excellent verbal and written communications skills
- Demonstrated interpersonal and problem solving skills
- Demonstrated experience both working in a project team and individually with limited supervision
- Experience with Cisco networking products, including both switches and wireless access points
- Values Diversity, Equity, and Inclusion
- Commitment to lifelong learning

Assets:

- Experience working with Cisco VoIP technologies
- Experience with macOS, Linux and Microsoft operating systems including Windows 8, Windows 10, and 2008/2012 Server
- Experience using network monitoring tools, such as log analyzers, LAN analyzers and cable meters
- Experience working with structured cable plant systems and specifications including CAT 6 and fiber optic technologies

Conditions of Employment:

- Candidates must be legally entitled to work in Canada
- Must be able to lift 25 lbs.
- Must possess a valid Manitoba Class 5 Driver's License
- May be required to work evenings and/or weekends; may be required to work overtime
- May be required to travel
- Satisfactory Criminal Records Check

We seek diversity in our workplace. Aboriginal persons, women, visible minorities and individuals with disabilities are encouraged to apply.

Competition Number: 2017-004
Closing Date: January 25, 2017
Salary Range: \$46,942 to \$64,209 per annum*
*Will receive a market supplement of \$4,710 to \$6,449 per annum respectively, prorated on an hourly basis

Apply to: Red River College by e-mail at humanresources@rrc.ca

We thank all applicants for their interest, but only those selected for an interview will be contacted. Red River College provides accommodations to applicants with disabilities throughout the hiring process. If an applicant requires an accommodation during the application or selection process, Human Resources will work with the applicant to meet the accommodation needs.
