

2nd Class Power Engineer Facility Management

This competition will be used to establish an eligibility list of qualified candidates for future vacancies.

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions.

Applicants must identify the competition number they are applying for in the subject line of the email.

Red River College is a leader in applied learning and innovation. Our talented team of employees is passionate about education, innovation and student success. We offer competitive salaries, extensive benefits, and the opportunity for personal and professional growth in a rewarding career. Together, we are going places.

Duties: Reporting to the Chief Power Engineer, the incumbent is responsible for the overall safe and efficient operation of a 1st Class High Pressure Heating Plant and all of its auxiliaries during an assigned shift. The incumbent will also supervise the operation of heating/cooling, water supply and electrical generating equipment, respond to fire alarms, observe and record all readings relating to energy consumption, steam and water pressures, cooling systems and related equipment, complete chemical testing and adding of chemicals to the boiler, chilled water and cooling tower systems. Must be able to carry out running repairs on all power plant equipment to ensure continuous plant operation. The incumbent will also supervise and instruct assistant operating engineers and maintenance assistants, test run emergency stand-by generators and fire booster pumps, and maintain firefighting equipment with knowledge of local fire regulations. The incumbent will follow regulations set by the Office of the Fire Commissioner of Manitoba (D.O.L.) with regards to safe operations, inspections and reporting of pressure vessels and steam plants.

Qualifications:

Required:

- 2nd Class Power Engineering Certificate
- Comprehensive knowledge of principals, practices and techniques of power plant operation, including maintenance of associated equipment
- Ability to work at heights and in confined spaces
- Excellent written and oral communication and interpersonal skills
- Ability to work both independently and in a team environment
- Strong knowledge of Workplace Safety and Health Regulations

Assets:

- Extensive experience working in a 1st or 2nd Class Steam Heating Plant
- Experience working with Building Management Systems
- Other Major Trades Journeyman designation

Conditions of Employment:

- Candidates must be legally entitled to work in Canada
- Must be able to work shifts, including overnight and weekends
- Must be physically capable of performing the duties of the position, including the wearing of PPE
- Subject to Audiometric Testing
- Valid Manitoba Class 5 Driver's License
- Satisfactory Criminal Records Check

We seek diversity in our workplace. Aboriginal persons, women, visible minorities and individuals with disabilities are encouraged to apply.

Competition Number: 2017-001
Closing Date: January 12, 2017
Salary Range: \$68,911- \$94,289 per annum
Apply to: Red River College
