

## Instructor, Civil Engineering Technology

### The School of Skilled Trades and Technologies

Full-Time Position Available

Applicants are to clearly demonstrate how they satisfy the selection criteria in their written submissions and must identify the competition number they are applying for in the subject line of the email

An eligibility list may be created for similar casual, part-time, full-time, and term positions

*Red River College is a leader in applied learning and innovation. Our talented team of employees is passionate about education, innovation and student success. We offer competitive salaries, extensive benefits, and the opportunity for personal and professional growth in a rewarding career.*

#### Duties:

The instructor will be responsible for course delivery in the Civil Engineering Technology family of programs. Duties will include: course preparation, delivery, and student evaluation as well as the development and maintenance of course outlines, learning outcomes, lesson plans, student notes, assignments, tests and examinations. The successful candidate will also participate in Department and College committees, assist in Department and College activities, develop/modify curriculum to reflect current industry needs, and monitor Co-op work term students

#### Required Qualifications:

- A diploma in Civil Engineering Technology; an equivalent combination of education and experience may be considered
- Knowledge of foundation design and geotechnical structures through completed coursework and/or related experience
- Experience in a geotechnical engineering related capacity
- Knowledge of soil classification methods
- Experience with geotechnical laboratory and field instrumentation and data logging
- Demonstrated research skills
- Proficient in the use of Microsoft Office: Word, Excel, Project, PowerPoint and Outlook
- Effective verbal and written communication skills
- Effective interpersonal and conflict resolution skills
- Effective leadership skills
- Ability to work independently as well as in small to large group settings
- Ability to present material to diverse groups with the use of appropriate technology
- Values Diversity, Equity, and Inclusion
- Commitment to lifelong learning

#### Assets:

- Post-graduate degree in Geotechnical or Civil Engineering
- Work experience on geotechnical and/or foundation projects
- Experience with performing geotechnical tests for soil strength, compressibility and permeability in a laboratory environment
- Knowledge of pavement materials and pavement mix design
- Experience with geo-environmental monitoring, sampling and analysis
- Experience in teaching in a secondary or post-secondary environment
- Experience with geotechnical analysis software (i.e. Geo-studio)

#### Conditions of Employment:

- Applicants must be legally entitled to work in Canada
- This position may be required to work evenings and/or weekends
- Instructors are required to complete a Certificate in Adult Education (CAE)

*We seek diversity in our workplace. Indigenous persons, women, visible minorities and individuals with disabilities are encouraged to apply.*

Competition Number: 2018-126  
Closing Date: August 13, 2018  
Salary Range: \$57,723 - \$85,733 per annum\*

*\*The successful candidate with a Masters or PhD in a related field will receive an Educational Supplement of \$2,725 or \$5,450 per annum, respectively, pro-rated on an hourly basis.*

Apply to Red River College by email: [humanresources@rrc.ca](mailto:humanresources@rrc.ca)

We thank all applicants for their interest, but only those selected for an interview will be contacted. Red River College provides accommodations to applicants with disabilities throughout the hiring process. If an applicant requires accommodation during the application or interview process, Human Resource Services will work with the applicant to meet accommodation needs.
